**GERMANY**

HONORED COUNTRY  
TIF 2024

## Germany's guest country participation at the T.I.F. 2024

Join us at the most important trade fair in Greece with a radiant impact on the Balkan region and the adjacent Mediterranean area. Germany presents itself in 2024 as the guest country of the T.I.F. under the umbrella brand 'made in Germany' on over 6,000 square meters. A German-speaking implementation company, high-quality stand construction and uniform stand design, digital marketing, use of the lounge for discussions including catering are available to you as usual. An extensive supporting program on the stage with planned theme days, educational and networking events and company presentations round off your presentation as an exhibitor at the T.I.F. 2024. In addition, experience a varied cultural program in the city in cooperation with the German Embassy in Athens, the German Consulate General in Thessaloniki, the German-Greek Chamber of Commerce and Industry, the Goethe Institute and the DGJW – German-Greek Youth Organization.
